

JAIDEEP SINGH

Lucknow, India | 8795665137 | [Gmail](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python, Machine Learning, AWS Cloud, Data Analysis, and Flask-based web applications. Built end-to-end AI and cybersecurity projects including phishing detection and sentiment analysis. Passionate about cloud technologies, DevOps, and software engineering, with strong problemsolving skills and experience using Git, GitHub, and modern development tools.

EDUCATION

Babu Banarasi Das University, Lucknow <i>B.Tech in Computer Science & Engineering</i>	2022 – 2026
Kendriya Vidyalaya, Aliganj, Lucknow <i>Intermediate (Class XII)</i>	2021 – 2022
Kendriya Vidyalaya, Aliganj, Lucknow <i>High School (Class X)</i>	2019 – 2020

TECHNICAL SKILLS

Languages: Python, SQL, HTML5, CSS3

Data Science & AI: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Exploratory Data Analysis (EDA)

NLP: NLTK, text preprocessing, feature extraction

Cloud: AWS (EC2, S3, IAM), cloud architecture, deployment models

Testing & Automation: Pytest, manual and automated software testing

Tools & Platforms: Git, GitHub, VS Code, Jupyter, Spyder, Streamlit, Render

Model Hub: Hugging Face

TRAINING

GRAS tech – AWS Cloud Computing Summer Training June 2025 – July 2025

- Gained hands-on experience with core AWS services, including EC2, S3, and IAM, through guided lab work
- Studied cloud architecture fundamentals such as virtualization, security, and deployment models
- Completed project-based training applying AWS infrastructure concepts to real-world use cases

PROJECTS

AviTrack AI

- Developed **AviTrack AI**, a web-based machine learning application for analyzing bird audio recordings and estimating bird population counts.
- Built the backend using **Python** and **Flask** to process audio uploads and generate real-time predictions.
- Extracted acoustic features from bird recordings using **Librosa** and **SoundFile**.
- Trained and integrated a **Random Forest Regression** model with **Scikit-learn** for bird population prediction.
- Designed a responsive and user-friendly interface using **HTML5** and **CSS3**.
- Utilized **Pandas** and **NumPy** for data preprocessing and feature engineering.

Tech Stack: Python • Flask • Scikit-learn • Librosa • Pandas • HTML5 • CSS3 • Git • GitHub

Alexa Review Sentiment Analysis

- Built an end-to-end NLP and machine learning application that classifies Amazon Alexa reviews as Positive or Negative
- Designed text preprocessing and feature extraction pipelines using NLTK and Scikit-learn
- Deployed a real-time sentiment prediction web application using Streamlit

Tech Stack: Python, Scikit-learn, NLTK, Streamlit

CyberShield AI

- Developed a machine learning-based phishing URL detection system using Python, Flask, and Scikit-learn
- Engineered URL features and built a classification model to distinguish phishing sites from legitimate ones
- Built a Flask-based backend API for real-time threat analysis and confidence-scored predictions
- Developed a Chrome Extension enabling browser-based website scanning and phishing detection
- Applied cybersecurity and web security principles to automate malicious URL identification and improve user protection

Tech Stack: Python, Flask, Scikit-learn, Pandas, NumPy, Machine Learning, Feature Engineering, JavaScript, Chrome Extension APIs, Git

CLARIFAI – AI-Powered Customer Support Chatbot

Python | Flask | LangChain | FAISS | NLP | RAG

- Developed an AI-powered customer support chatbot using Python, NLP, RAG, and vector databases to automate query resolution.
- Implemented semantic search and sentiment analysis using LangChain and FAISS/Pinecone for context-aware responses.
- Built REST APIs with Flask and integrated a responsive web interface for real-time interactions.
- Achieved 92% response accuracy with an average response time of 2 seconds and support for 100+ concurrent users.

Tech Stack: Python, Flask, LangChain, NLP, RAG, Transformers, FAISS/Pinecone, HTML, CSS, JavaScript, Git

CERTIFICATIONS

- Python Programming – IBM Career Education Program
- Cloud Application Developer – IBM Career Education Program
